---

It is my pleasure to recommend Thorne Abbott to anyone seeking assistance with zoning, planning, and similar issues. He accomplished what many others had failed to do: getting our property's zoning designation changed and later preparing reports and studies which led to an approval for construction. He's thorough, smart, and great to work with. Marc Turtleaub

It gives me a lot to be thankful for this Thanksgiving and I hope you both have a great holiday too. If you have the extra time, I would welcome a letter of recommendation if you are amenable to me sharing it with other potential clients.
